Dietary Supplement GMPs that Work for You!

Learn how to make the GMP regulations improve your company's efficiency and product quality.

- Operating Procedures
- Documentation
- Enforcement

Course Directed by:
Gary Callahan
President, Consulting Services, Inc.

Presented by:

Consulting Services, Inc.

Who Should Attend

This One-Day intensive course is designed for Top Management and Owners of Dietary Supplement Manufacturing facilities who desire to increase their production output while meeting the requirements of the new GMPs for Dietary Supplements.

Others who would benefit from this course would include... Plant or Operations Managers, Quality Control and Quality Assurance Managers, Regulatory Compliance Managers, and Production Managers.

Learning Objectives

*Upon completion of this course you will understand how to utilize the new regulations to enhance your company's operating systems.

*You will learn the methods of identifying reoccurring obstacles that slow down your processes and learn how to correct them in accordance with the new regulations.

*You will learn how well written procedures help to create systems that remove margins for error and make your employees more valuable.

*You will learn how to simplify your documentation system, and how documents play an important role in the new regulations.

Course Director

Gary Callahan, has over forty years of hands-on and management experience in the pharmaceutical manufacturing industry. Throughout his career, he has implemented many GMP and SOP programs in several different companies to meet compliance standards set by the FDA. Mr. Callahan has managed key projects resulting in securing five state issued drug licenses for different drug manufacturing companies in the State of California. He is also the author and course director of the two-day short course "Writing SOP's for cGMP Compliance" offered through the Center for Professional Advancement in association with The Institute for Applied Pharmaceutical Sciences, and recognized by the International Association for Continuing Education and Training (IACET), and accredited by the Accreditation Council for Pharmacy Education (ACPE). Mr. Callahan's course is also recognized by the Society of Manufacturing Engineers (SME) and the American Society for Quality (ASQ).

Mr. Callahan holds a Bachelor of Science degree in Business Administration and a Masters degree in Business Management from Alameda College and University. In addition, Mr. Callahan has worked on the research and development of new drug products at the University of Iowa, School of Pharmaceuticals. He is also licensed by the California State Board of Pharmacy as a Manufacturer of Dangerous Drugs, is a long-standing member and past President of the Pacific Technology Exchange (PTE), and a member of ASQ and the International Society of Pharmaceutical Engineers (ISPE).
